THE TRAFFIC WORLD

VOLUME LXV

January to June, Inclusive, 1940

PUBLISHED BY
THE TRAFFIC SERVICE CORPORATION
CHICAGO, ILL.

Mr. Traffic Manager....

There must be times when you puzzle a bit over the men in your department. Details pile up and you wish there were someone ready to take them off your hands and leave you free for your bigger problems. Maybe you have an ambitious chap whom you'd like to promote to bigger responsibilities—but he is not quite ready. Or you may not have anyone who could conceivably be considered.

In the first case, why not suggest to that likely chap that he study Traffic Management at home at night? In a short time he would become more expert and take a load off your shoulders. Then you would have an assistant who knows your organization methods well and has also the necessary specialized ability. It would cost him little—and your firm might even help him bear the small cost of the training.

We shall be glad to give you full information as to how this can be done—and to tell you about our home study Traffic Management training. For 29 years we have been training men and our graduates are found everywhere in the traffic field.

In the second case, ask our Placement Department to suggest some good men who are already trained and experienced. We may be able to suggest just the right man—and the service is free to you and to the man.

It costs nothing to investigate. Just tell us what you want.
